10<sup>th</sup> December 2017

Dear Parents,

**Sub: Parking and Movement of Vehicles during  
Drop Off and Pick-up of Own Transport Students**

Please note the school management is extremely concerned regarding the risky and hasty manner in which certain parents/drivers are dropping off and picking up their wards to and from the school.

It has been observed that not only idling cars are blocking the school entrances, but there are cars inappropriately parked on the pavement and the sand area next to Gate 4. This is a major safety hazard which causes extreme risk to pedestrians, both students and adults.

We strongly urge all parents to be cautious and ensure safety of all pedestrians in the school vicinity and refrain from RTA traffic violations.

*Kindly ignore the email in case your child is using Progressive transport.*

We look forward to your kind cooperation.

Thank you and best regards,  
*Shagufta Kidwai*  
**Principal**
