Dear Parents,

We are delighted to inform you that out of 200+ film entries, all three different genre films created by the Reel Innovation Production from selected students of Year 3 to 8 has been officially made it to "Children's International Film Festival's Official Selection".

The competition is not yet over as the final decision will be judged by CIFF 2017's International Panel of Jury and will compete for the most coveted "CIFF Film Awards". For our film to remain in the competition, we need to show our support by attending the festival screenings at VOX Cinemas where the films will also be competing for the Audience choice awards.

The winning films will travel to other Children's Film festivals across the world.

Let us be united in showing our support to the Reel Innovation Production on 2nd and 3rd May 2017 for an exclusive school show for the students.

Year 6 to 8 - 3rd May
