## METAMORPHOSIS

“Nothing ever really goes away - it just changes into something else, something beautiful.”

-Sara Ockler

“We are all butterflies. Earth is our Chrysalis. Metamorphosis is the most profound of all acts.” Release yourselves from the dark cocoon, embrace your wings and soar! Sometimes to change a situation you are in, requires you to take a giant leap. But, you won't be able to fly unless you are willing to transform. Any transformation serious enough to change your definition of self will require not just small adjustments in our lifestyle, but a total metamorphosis. Human era has marked significant revolution in terms of technology, science, individualism, industrialization and urbanization. These gradual changes in the way of our lives have led to a complete transformation, what can also be called as metamorphosis.
